

CA Proposition 65 Statement

Proposition 65, officially known as the Safe Drinking Water and Toxic Enforcement Act of 1986, was enacted as a ballot initiative in November 1986. The proposition helps protect the state's drinking water sources from being contaminated with approximately 700 chemicals known to cause cancer, birth defects or other reproductive harm ("Proposition 65 Substances"), and requires businesses to inform Californians about exposures to Proposition 65 Substances.

Bourns, Inc. is aware of the Proposition 65 disclosure requirements for its employees and visitors to our office in Riverside, California. Bourns will disclose any usage of the currently listed Proposition 65 Substances and any usage of new Proposition 65 Substances that are added to the list in the future. Bourns also is engaged in efforts to eliminate potential exposure to Proposition 65 Substances through the (i) use of substitute chemicals that are not Proposition 65 Substances, (ii) removal of Proposition 65 Substances through mechanical means, and (iii) use of personal protective equipment when exposed to Proposition 65 Substances.

Bourns does not typically manufacture or market consumer products. However, the parts and components that Bourns manufactures and markets may be incorporated directly or indirectly into various consumer electronic products (e.g., computers, hand-held devices) and larger consumer products such as white goods and automobiles. Proposition 65 Substances used by Bourns may include lead-containing solder, nickel alloys/plating, and antimony trioxide bound in some plastics. Due to the use of Proposition 65 Substances in some of our products, Bourns is providing the following warnings where appropriate:

WARNING

WARNING This product can expose you to chemicals such as lead or nickel which are known to the State of California to cause cancer and reproductive harm. For more information, go to www.P65Warnings.ca.gov.

Bourns is in the process of adding Proposition 65 statements to applicable datasheets. When reviewing individual product datasheets on the Bourns website, those datasheets for products containing a Proposition 65 listed chemical will include this statement:

WARNING Cancer and Reproductive Harm – www.P65Warning.ca.gov
