

IMPORTANT LEGAL INFORMATION: California Proposition 65 Warning Requirements

Your response is required

Gus Rojas
Master Electronics
PO BOX 25662
Los Angeles, CA 90025

August 27th, 2018

Dear Gus,

According to California Health and Safety Code Section 25249.6, no person in the course of doing business shall knowingly and intentionally expose an individual to a product containing chemicals known to the state of California that cause cancer, birth defects or other reproductive harm without first providing a clear and reasonable warning.

The California Attorney General's Office has indicated that, in their view, distributors of products have a duty to inform their customers of the warning requirement and to take reasonable steps to ensure their customers are properly provided with the warning to the ultimate purchaser of the products.

Opto 22 is providing you with the following methods to comply with Proposition 65. Starting **August 1st, 2018**, we will include the following short-form warning label on the immediate package of each affected product (see the attached list of affected products):

WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

For unlabeled product you may already have in stock, we are providing short-form warning labels for you to attach on the immediate package of each affected product. Please contact pcs@opto22.com for these labels if you need them for shipments to California. The Proposition 65 changes will be **effective August 31st, 2018**.

If shipping/selling within California you must include this warning on labels, purchasing catalogs, and the product page of your website.

By signing below, you are verifying the above information is agreed & understood.

X _____

TITLE: _____

DATE: _____

Thank you for your prompt attention to this matter.

Sincerely,

Colleen Gibson
Inside Sales Specialist, Opto 22
