**STATEMENT OF COMPLIANCE WITH CALIFORNIA SAFE DRINKING
WATER AND TOXIC ENFORCEMENT ACT OF 1986**

Dear Master Electronics,

Marathon Special Products is committed to providing customers with products that comply with applicable regulations and international protocols to which they are subject, including the requirements of the California's Safe Drinking Water and Toxic Enforcement Act of 1986 more commonly referred to as Proposition 65 ("Prop 65").

Marathon Special Products hereby states that the products listed below may contain one or more of the substances listed by the State of California Environmental Protection Agency Office of Environmental Health Hazard Assessment (OEHHA) as "chemicals known to the State to cause cancer or reproductive toxicity." However, based on our knowledge of the concentrations of such chemicals in the products and the nature of the normal use and handling of products, our best technical assessment is that the presence of such chemicals in the products create no or negligible exposure to humans or the environment and such exposure, if any, is less than exposure levels requiring warnings under California Proposition 65. Please note that the Act does not prohibit the use of listed substances from being present in the product only that they are not released during normal use.

This statement is based on information provided by our suppliers. Please note that Marathon Special Products and its suppliers do not analyze its products for substances not purposely added. Trace amounts of any chemical and substance might be found as impurities in any product.

Marathon Special Products will make reasonable attempts to notify its customers of changes to raw materials or processes that may cause a product to fail to comply as we learn of such situations.

This statement supersedes any statements previously issued pertaining to the parts listed below. This statement is subject to change without notice.
