RAFIX 22 FS+ CONTROL COMPONENTS

## RAFIX 22 FS+

### Control components of the future

The RAFIX 22 FS+ series is setting new standards in the world of control components. Extremely flat construction and functional aesthetic design are essential in an increasingly design-oriented industrial environment. The wide variety and variability of the actuators give your designer complete freedom: round or square collar types, radiant colours and homogenous illumination of the large actuat-

ing areas are among the basic features. Combined with the various front rings, they ensure that you can create a panel with a truly distinctive design. For example, a defined colour can be consistently assigned to a specific command. In addition, the large number of colour options available for the front rings enables easy customisation to suit the corporate design of different OEMs.

### Fast

The fastest connection type for every application: with a printed circuit board or directly with quick-connect terminals.

- A printed circuit board is the best and fastest solution, starting with medium quantities. Moreover, PCB contact blocks can be ideally combined with displays, tactile switches and other electronics on a common printed circuit board.
- Alternatively, QC contact blocks can be easily snapped into the actuators without tools. Male quick-connect terminals are used directly for wiring in a conventional manner. This is a fast and efficient variant for applications where a printed circuit board is not cost-effective.

### + PLUS

RAFIX 22 FS+ has additional benefits for you:

- Various actuators and contact block options – a complete series
- Variable thanks to round or square operating elements
- Variable thanks to gold contacts from 5 V or silver contacts up to 250 V
- Short-travel adapter for short-travel actuation (1 mm switching travel) with perceptible key click
- Variable design thanks to various front ring colours
- Variable illumination, compatible with 3 mm THT LEDs or SMT LEDs

### SLIM

Now it's a snap to slim the design of your control systems thanks to the low mounting depth.

- Designs with PCB contact blocks feature a distance between the front panel and printed circuit board of only 9.2 mm; the same applies to contact blocks with silver contacts for the mains voltage. That's as slim as it gets.
- Also when fitted with QC contact blocks, RAFIX 22 FS+ panels are unbeatably flat. Requiring only 27 mm of space behind the front panel, they provide tremendous design scope for inspiring control panels.

## RAFIX 22 FS+ Pushbuttons FLEXLAB

→ The RAFIX 22 FS+ FLEXLAB pushbutton allows individual control component labeling. A DIN A4 label sheet with pre-cut labels which fits in customary office laser printers is available for this option. After the legend inserts are printed, they be detached from the sheet and inserted into the colored lens using the fine stop tabs.

### Technical Data

#### → General information

Form of lens	flat lens
Color of lens	see order block
Color of front ring	see order block
Form of collar	see order block

#### → Dimensions

Dimensions of collar	see order block
Overall height	9.85 mm
Mounting depth	PCB 9.2 mm, QC 27 mm
Mounting hole	22.3 mm
Key grid	30 x 30 mm

#### → Mechanical design

Mounting	ring nut
Contact function	see order block
Illuminability	yes
Torque for nut ring	1.2 Nm

#### → Mechanical characteristics

Operating travel	4 mm
Robustness max.	100 N

#### → Other specifications

Ambient temp. operating min.	-25 °C
Ambient temp. operating max.	+70 °C
Storage temperature min.	-40 °C
Storage temperature max.	+80 °C
Operating life	1,000,000 momentary / 500,000 latching
B10	1,300,000 momentary / 650,000 latching
Degree of protection from front side	IP65 (DIN EN 60529)
Environmental resistance	acc. to IEC 60068-2-14, -30, -33 and -78
Salt spray	IEC 600 68-2-11
ROHS compliant	yes
REACH compliant	yes

Panel cut-out to IEC 60947-5-1

### Approvals

UL 508  
in preparation

# RAFIX 22 FS+ Keylock switches compact

→ The locking systems we use are created according to DIN EN 1303 by leading lock manufacturers. They are open, mechanical systems that require occasional maintenance of the machinery or plant operator depending on environmental conditions.

## Technical Data

### → General information

Color of front ring	see order block
Form of collar	see order block

### → Dimensions

Dimensions of collar	see order block
Overall height	44.1 mm
Mounting depth	PCB 9.2 mm, QC 27 mm
Mounting hole	22.3 mm
Key grid	30 x 30 mm

### → Mechanical design

Mounting	ring nut
Contact function	see order block
Illuminability	see order block
Wafers	5
Lock type	001
Main key	on request
Rotating angle	see order block
Key removal position	see order block
Torque for nut ring	1.2 Nm

### → Mechanical characteristics

Torque max.	1.3 Nm
-------------	--------

### → Other specifications

Operating life	300,000 momentary / 50,000 latching / 30,000 with key removal
B10	400,000 momentary / 65,000 latching / 40,000 with key removal
Degree of protection from front side	IP65 (DIN EN 60529)
Ambient temp. operating min.	-25 °C
Ambient temp. operating max.	+70 °C
Storage temperature min.	-40 °C
Storage temperature max.	+80 °C
Environmental resistance	acc. to IEC 60068-2-14, -30, -33 and -78
ESD-strength lock / contact	15 kV
ESD-strength key / front panel	15 kV
Salt spray	IEC 600 68-2-11
ROHS compliant	yes
REACH compliant	yes

Included: 2 keys.

## RAFIX 22 FS+ Emergency stop pushbuttons compact

- The emergency stop pushbuttons compact comply with IEC 60 204, IEC 60 073, IEC 60 947 and VDE 0113 Part 1. They are designed dupe-proof according to EN 418 with a positive mechanical movement sequence. A certain operating force must be exerted at the action point in order to prevent inadvertent operation. The pushbutton latches when pressed.

The special shape of the actuator prevents the emergency stop pushbutton from being blocked. This means that the emergency stop process - once initiated - cannot be impeded by any jamming objects.

Only use with E-stop contact blocks.

Original manual see chapter 6, RAFI catalog „Electromechanical Components“

Panel cut-out to IEC 60947-5-1

### Technical Data
